Subject: [cc-undergraduateacademics] Student Alert: Check and declare threads now

Dear Students,

Take a few moments now to check that your threads are entered correctly or to declare your threads.

Find instructions for adding threads here: http://www.degreeworks.gatech.edu/images/training/concentration_mgt.pdf .

Video instructions are here: https://www.youtube.com/watch?v=oY_KFoqXtUY

The last opportunity to declare or change threads before spring 2023 phase I registration is Thursday, April 7th. After this date, students can drop a thread, but will not be able to add one until after thread restrictions are lifted on Monday, April 24th by noon

Please note that CS 3000-4000 level classes will be restricted by threads April 10th-24th. **Students will not be able to register for these courses unless their threads are declared in OSCAR by Thursday, April 7th by noon.**

Contact your advisor with any questions or concerns.

Best Regards,

****
