Subject: [cc-undergraduateacademics] Student Alert: New CS 4510 section

Dear Students,

Please see the message from the 4510 (C2) professor below:

A new section of CS 4510 (C2) has been announced. The only difference between Section C2 from A and B is that the Section C2 has been capped to 100 students to offer one smaller section of the course.

The new section will be taught by Prof. Suguman Bansal. Classes will be held on MW 5pm-6:30pm in College of Computing 17. The first class will be held on Wednesday, January 10, 2023. You may reach the instructor at suguman@gatech.edu for further details.

Please drop by! I look forward to meeting you."

Thanks,
Suguman

Sincerely,

Office of Undergraduate Advising
College of Computing
