Note:

We intend to cover more material in this course than the other sections of CS4400. We will also expect more work from students in terms of assignments, presentations and exams in this course. You must have a junior or senior standing to enroll in this course. For graduates, only those pursuing a Ph.D. should apply.

Instructions:

(1) Complete Form. Attach an unofficial transcript
Student Name: _________________________________
Student ID Number: _________________________________
Student Email: _________________________________

(2) If you are not a CS major, please answer the following questions on a separate sheet and attach:
   a. What is your major and what degree are you pursuing?
   b. What is your purpose in taking this course?
   c. List courses taken in CS showing course number, semester, instructor-name, grade received
   d. How much programming have you done in the past? Describe a couple of projects (each in 4-5 lines) you have done involving programming.
   e. Have you done any industrial internships and/or co-op work? If you have any prior database-related experience, describe the nature of project done and tools/environments used for software development. Mention any exposure to relational vs. NOSQL environments.
   f. What is your plan beyond graduation?

(3) If you are a CS major, you should have done the necessary prerequisites and must have enough experience with software development in Java, Python etc. Attach a separate sheet answering only parts (d), (e) and (f) from the above question.

(4) Are there any special circumstances that would justify your taking this course?

Student Signature: __________________________________________ Date: ____________
Instructor Approval*: _________________________________________ Date: ____________

NOTE:

(1) If the Instructor approves and signs the form, submit the paperwork in the box labeled “Drop Box” across from the CS advisors’ offices (114/115) in the College of Computing Building.

(2) Approval does not guarantee you a seat in the course. It gives you permission to take the course if a seat is available.
