

College of Computing at Georgia Tech Hosts Workshop to Drive Innovation in Cell Broadband Engine Processor Research

From: [Business Wire](#) | Date: [May 31, 2007](#)

The College of Computing at Georgia Tech today announced it will host the Georgia Tech Cell Broadband Engine™ (Cell/B.E.) Processor Workshop from June 18-19, 2007, focusing on applications for the Cell/B.E. processor, including gaming, virtual reality, home entertainment, tools and programmability and high performance scientific and technical computing.

The two-day workshop is sponsored by Sony Computer Entertainment Inc. (SCEI), Toshiba and IBM and will be held at the Klaus Advanced Computing Building on Georgia Tech's campus. Keynote speakers at the event include Bijan ...
