

Overview of InfoVis

CS 4460 – Intro. to Information Visualization
Aug. 21, 2014
John Stasko

Exercise

- Get out pencil and paper

Data Overload

- Confound: How to make use of the data
 - How do we make sense of the data?
 - How do we harness this data in decision-making processes?
 - How do we avoid being overwhelmed?

Fall 2014

CS 4460

5

The Challenge

- Transform the *data* into *information* (understanding, insight) thus making it useful to people

Fall 2014

CS 4460

6

The Problem

Web,
Books,
Papers,
Game scores,
Scientific data,
Biotech,
Shopping
People
Stock/finance

of Chris North

Fall 2014

CS 4460

7

Human Vision

- Highest bandwidth sense
- Fast, parallel
- Pattern recognition
- Pre-attentive
- Extends memory and cognitive capacity
- People think visually

Impressive. Lets use it!

Fall 2014

CS 4460

8

An Example

- Why visualization helps...

Fall 2014

CS 4460

9

Questions: Which cereal has the most/least potassium?
 Is there a relationship between potassium and fiber?
 If so, are there any outliers?
 Which manufacturer makes the healthiest cereals?

	A	B	C	D					
1	Cereal	Manufacturer	Fiber	Potassium					
2	100% Bran	N	10	280	28	Honey-comb	P	0	35
3	100% Natural Bran	Q	2	135	29	Just Right Fruit & Nut	K	2	95
4	All-Bran	K	9	320	30	Life	Q	2	95
5	All-Bran with Extra Fiber	K	14	330	31	Lucky Charms	G	0	55
6	Almond Delight	R	1	0	32	Maypo	A	0	95
7	Apple Cinnamon Cheerios	G	1.5	70	33	Muesli Raisins, Dates, &	R	3	170
8	Bran Chex	R	4	125	34	Multi-Grain Cheerios	G	2	90
9	Bran Flakes	P	5	190	35	Nutri-Grain Almond-Rais	K	3	130
10	Cap'n Crunch	Q	0	35	36	Nutri-grain Wheat	K	3	90
11	Cheerios	G	2	105	37	Oatmeal Raisin Crisp	G	1.5	120
12	Cocoa Puffs	G	0	55	38	Post Nat. Raisin Bran	P	6	260
13	Corn Chex	R	0	25	39	Product 19	K	1	45
14	Corn Flakes	K	1	35	40	Quaker Oatmeal	Q	2.7	110
15	Count Chocula	G	0	65	41	Raisin Bran	K	5	240
16	Cracklin' Oat Bran	K	4	160	42	Raisin Nut Bran	G	2.5	140
17	Cream of Wheat (Quick)	N	1	0	43	Rice Krispies	K	0	35
18	Crispy Wheat & Raisins	G	2	120	44	Shredded Wheat	N	3	95
19	Double Chex	R	1	80	45	Shredded Wheat 'n Bran	N	4	140

Fall 2014

Potassium

CS 4460

11

Even Tougher?

- What if you could only see one cereal's data at a time? (e.g. some websites)
- What if I read the data to you?

Fall 2014

CS 4460

12

Another Illustrative Example

Fall 2014

CS 4460

13

Four Data Sets

- Mean of the x values = 9.0
- Mean of the y values = 7.5
- Equation of the least-squared regression line is: $y = 3 + 0.5x$
- Sums of squared errors (about the mean) = 110.0
- Regression sums of squared errors (variance accounted for by x) = 27.5
- Residual sums of squared errors (about the regression line) = 13.75
- Correlation coefficient = 0.82
- Coefficient of determination = 0.67

<http://astro.swarthmore.edu/astro121/anscombe.html>

Fall 2014

CS 4460

14

The Data Sets

Fall 2014

CS 4460

15

The Values

1	2	3	4
10.0, 8.04	10.0, 9.14	10.0, 7.46	8.0, 6.58
8.0, 6.95	8.0, 8.14	8.0, 6.77	8.0, 5.76
13.0, 7.58	13.0, 8.74	13.0, 12.74	8.0, 7.71
9.0, 8.81	9.0, 8.77	9.0, 7.11	8.0, 8.84
11.0, 8.33	11.0, 9.26	11.0, 7.81	8.0, 8.47
14.0, 9.96	14.0, 8.10	14.0, 8.84	8.0, 7.04
6.0, 7.24	6.0, 6.13	6.0, 6.08	8.0, 5.25
4.0, 4.26	4.0, 3.10	4.0, 5.39	19.0, 12.50
12.0, 10.84	12.0, 9.13	12.0, 8.15	8.0, 5.56
7.0, 4.82	7.0, 7.26	7.0, 6.42	8.0, 7.91
5.0, 5.68	5.0, 4.74	5.0, 5.73	8.0, 6.89

Fall 2014

CS 4460

16

Exercise Redux

- Let's check what you did...

- People work differently

Fall 2014

CS 4460

17

Visualization

- Definition
 - “The use of computer-supported, interactive visual representations of data to amplify cognition.”

From

Fall 2014

CS 4460

18

Visualization

- Often thought of as process of making a graphic or an image
- Really is a cognitive process
 - Form a mental image of something
 - Internalize an understanding
- “The purpose of visualization is insight, not pictures”
 - Insight: discovery, decision making, explanation

Fall 2014

CS 4460

19

Visuals Help Us Think

- Provide a frame of reference, a temporary storage area
- Cognition → Perception
- Pattern matching
- External cognition aid
 - Role of external world in thinking and reason

Larkin & Simon '87
Card, Mackinlay, Shneiderman '98

Fall 2014

CS 4460

20

Expressed Well

“Contained within the data of any investigation is information that can yield conclusions to questions not even originally asked. That is, there can be surprises in the data...To regularly miss surprises by failing to probe thoroughly with visualization tools is terribly inefficient because the cost of intensive data analysis is typically very small compared with the cost of data collection.”

W. Cleveland
The Elements of Graphing Data

Fall 2014

CS 4460

21

Part of our Culture

Syllabus

Info
central

The screenshot shows a web browser displaying the syllabus for CS 4460: Information Visualization. The page has a blue header with the course title and a navigation menu. The main content is titled 'Syllabus' and includes an 'Overview' section with a table of weekly topics and dates. Below the table is a 'Detail' section with a sub-heading for 'Aug 19 - Introduction' and a list of 'Readings'.

Week	Dates	Topic	Topic	HW
1	Aug 19, 21	Introduction	InfoVis overview	
2	Aug 26, 28	Visual perception	Inputs and outputs	
3	Sep 2, 4	Storyboarding	Mathematical data & table/graph design	
4	Sep 9, 11	Few's design guidance	Multivariate visual representations 1	
5	Sep 16, 18	Multivariate visual representations 2	CS lateral session	
6	Sep 23, 25	InfoVis systems & toolkits	Guest lecture	
7	Sep 30, Oct 2	Design session and Exam review	Midterm Exam	
8	Oct 7, 9	Overview & detail	Poster session	
9	Oct 14, 16	No Class - Fall break	Time series data	
10	Oct 21, 23	Graphs and networks	Hierarchies & trees	
11	Oct 28, 30	Text & documents 1	Text & documents 2	
12	Nov 4, 6	Interaction	Commercial systems demos	
13	Nov 11, 13	Visual benefits of visualization	Project work day	
14	Nov 18, 20	InfoVis design principles	Visual analytics	
15	Nov 25, 27	Evaluation	No Class - Thanksgiving break	
16	Dec 2, 4	Project presentations	Project presentations & Review	

Fall 2014

CS 4460

28

Grading

- 5% - Participation
- 25% - Assignments
 - HWs (about 7)
- 35% - Project
- 15% - Midterm Exam
- 20% - Final Exam

- (Details still being finalized)

Fall 2014

CS 4460

29

*** CAVEAT ***

- This course is a **lot** of work. If you're just looking for some easy grade, I would advise you to drop now.

- If you are sincerely interested in this topic, I hope you will enjoy the course and learn a lot

Fall 2014

CS 4460

30

Back to our show

Fall 2014

CS 4460

31

Purpose

- Two main uses of infovis
 - Analysis – Understand your data better and act upon that understanding (Exploratory)
 - Presentation – Communicate and inform others more effectively (Explanatory)

Fall 2014

CS 4460

32

1. Analysis

- Given all the data, then
 - understand, compare, decide, judge, evaluate, assess, determine, ...
- Ultimately, about solving problems

Fall 2014

CS 4460

When to Apply?

- Many other techniques for data analysis
 - Statistics, DB, data mining, machine learning
- Visualization most useful in **exploratory data analysis**
 - Don't know what you're looking for
 - Don't have a priori questions
 - Want to know what questions to ask

"A graphic display has many purposes but it achieves its highest value when it forces us to see what we were not expecting."

H. Wainer

Fall 2014

CS 4460

34

EDA Example 1

- Business
 - Why has Hyundai made such great strides in the US market?
 - How influential was their “Lose your job, we’ll buy the car back” campaign?
 - Have their cars improved in quality? If so, in what major ways?
 - Is the Genesis as good of a car as the Lexus ES?

Fall 2014

CS 4460

35

EDA Example 2

- Airlines
 - What are the key factors causing flight delays in the US?
 - Are delays worse in the summer or winter?
 - Is the seasonal effect influenced by geographic location?
 - How does competition at an airport affect flight delays?

Fall 2014

CS 4460

36

More on EDA

“Information visualization is ideal for exploratory data analysis. Our eyes are naturally drawn to trends, patterns, and exceptions that would be difficult or impossible to find using more traditional approaches, such as tables or text, including pivot tables. When exploring data, even the best statisticians often set their calculations aside for a while and let their eyes take the lead.”

S. Few
Now you see it

Fall 2014

CS 4460

37

Tasks for Info Vis?

- Search (OK)
 - Finding a specific piece of information
 - How many games did the Braves win in 1995?
 - What novels did Ian Fleming author?
- Browsing (Better)
 - Look over or inspect something in a more casual manner, seek interesting information
 - Learn about crystallography
 - What has Jane been up to lately?

Fall 2014

CS 4460

38

Tasks in Info Vis

- Analysis
 - Comparison-Difference
 - Outliers, Extremes
 - Patterns
- Assimilation
- Monitoring
- Awareness

More to come in a future class...

Fall 2014

CS 4460

39

2. Presentation

- Use visualization to communicate ideas, influence, explain, persuade
- Visuals can serve as evidence or support

Fall 2014

CS 4460

When to Apply?

- Visuals can frequently take the place of many words
- Visuals can summarize, aggregate, unite, explain, ...
- Sometimes words are needed, however

Key Benefits of Visualization

- Facilitating awareness and understanding
- Helping to raise new questions and supply answers
- Generating insights
- Telling a story and making a point

Key Challenge

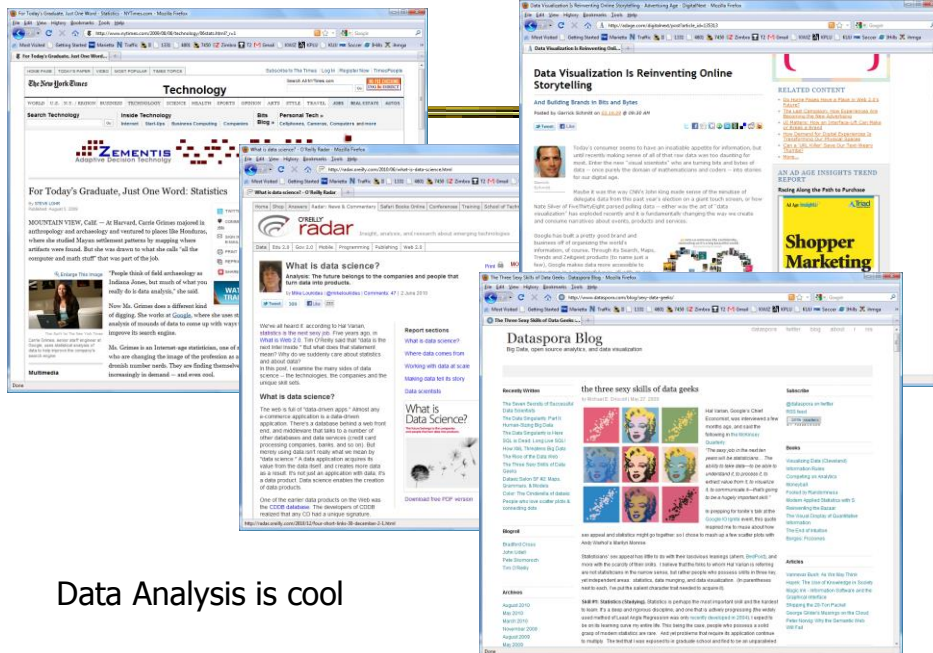

- How to measure and prove?
 - All those benefits are not easily quantifiable and measured
- Evaluation is perhaps primary open research challenge for visualization

More to come later in term

Fall 2014

CS 4460

Data Analysis is cool

Fall 2014

CS 4460

44

Academic Areas

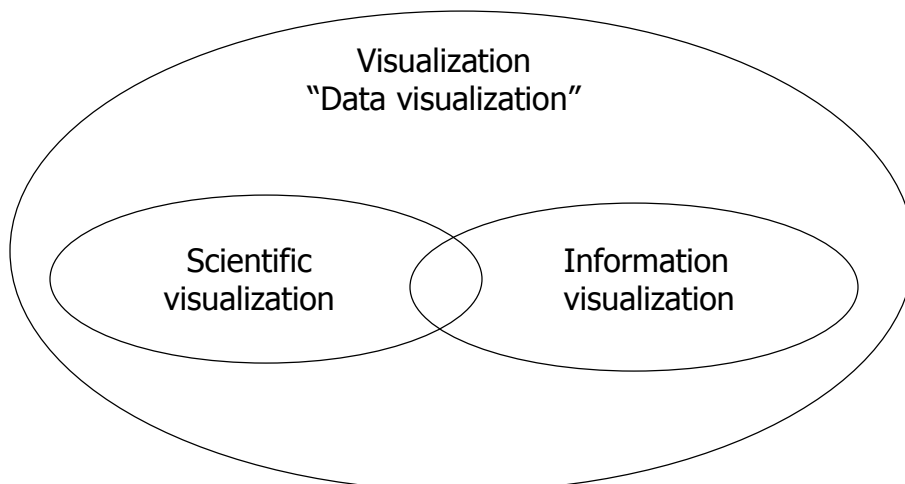

- Where does InfoVis fit in the academic world?

Fall 2014

CS 4460

45

Overview

Fall 2014

CS 4460

46

Scientific Visualization

- Primarily relates to and represents something spatial, physical or geometric
 - Often 3-D
 - Examples
 - Air flow over a wing
 - Stresses on a girder
 - Torrents inside a tornado
 - Organs in the human body
 - Molecular bonding

Not the focus of this class

Fall 2014

CS 4460

47

Information Visualization

- 1. What is “information”?
 - Non-spatial data: Items, entities, things which do not have a direct physical correspondence
 - Notion of abstractness of the entities is important too
 - Examples: baseball statistics, stock trends, connections between criminals, car attributes...

Fall 2014

CS 4460

48

Information Visualization

- 2. What is “visualization”?
 - The use of computer-supported, interactive visual representations of data to amplify cognition.
From [Card, Mackinlay Shneiderman '98]

Fall 2014

CS 4460

49

Information Visualization

- Characteristics:
 - Taking items without a direct physical or spatial correspondence and mapping them to a 2-D or 3-D physical space
 - Giving information a visual representation that is useful for analysis and presentation
 - “A key challenge in information visualization is designing a cognitively useful spatial mapping of a dataset that is not inherently spatial and accompanying the mapping by interaction techniques that allow people to intuitively explore the dataset. Information visualization draws on the intellectual history of several traditions, including computer graphics, human-computer interaction, cognitive psychology, semiotics, graphic design, statistical graphics, cartography, and art.”

<http://conferences.computer.org/infovis/>

Fall 2014

CS 4460

50

Constituents

- Two key aspects of infovis
 - Representation
 - Interaction (too often overlooked)

“The effectiveness of information visualization hinges on two things: its ability to clearly and accurately represent information and our ability to interact with it to figure out what the information means.”

S. Few, Now you see it

Two Key Challenges

- Scale
 - Challenge often arises when data sets become large
- Diversity
 - Data of data types, forms, sizes

Example Domains for Info Vis

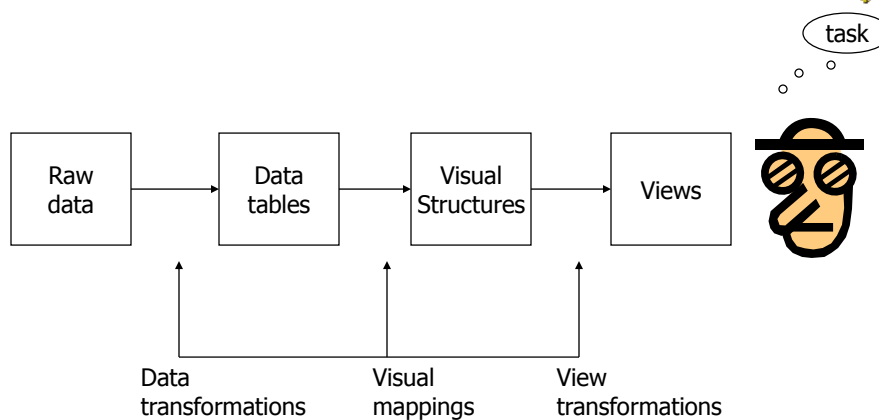

- Text
- Statistics
- Financial/business data
- Internet information
- Software
- ...

Fall 2014

CS 4460

53

InfoVis Process Model

From: Card, Mackinlay, Shneiderman '99

Fall 2014

CS 4460

54

InfoVis Examples

- Start with static pictures (InfoGraphics)
 - Very popular on the web
 - But are they information visualizations if they're not interactive?

Fall 2014

Population

Where We Live...

Unlike many developed countries, the U.S. keeps growing. We are also moving south and west. But compared with China or India, the nation is a vast prairie.

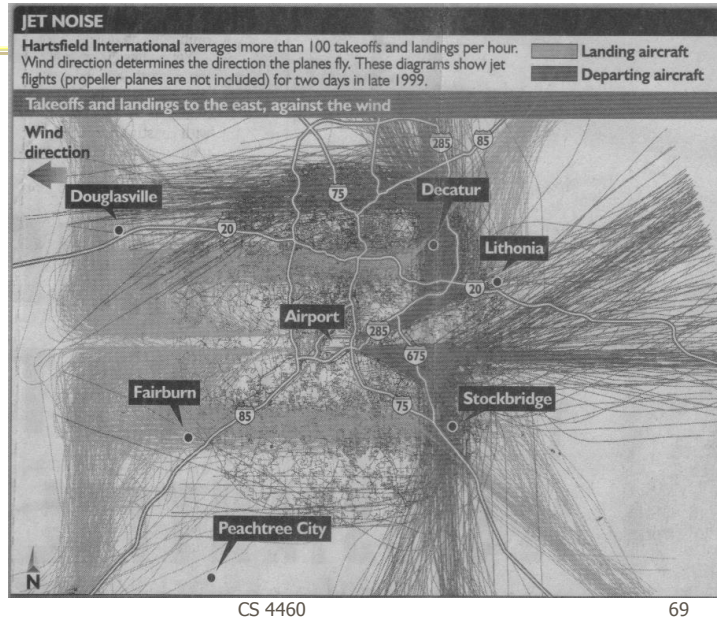

Our families are getting smaller—with one vital exception. Compared with those of Europe and Japan, the U.S. population is younger and more colorful because of the continued arrival of immigrants and their higher-than-average birthrates. Of the 300 million Americans who will join us in the next 27 years, half will be immigrants or their children. In the next few decades, 97% of the world's population growth will occur in the developing world; the U.S. is the largest developed country in the world that is still growing at a healthy clip. That matters, strategically, economically.

Map: Phoenix, TX, KY, or Louisville, N.Y. But they are all probably close to someone's idea of paradise. —By Bruce Gizer
